Klove Radio serves me as a resident of Roseville by providing me with commercial free quality broadcasting of positive and encouraging Christian music. There is no other station like it. If this was no longer available to me and my family, it would be impossible to find the kind of support that station provides in my area. They offer prayer support as well as music to the listeners. The service provided by KLOVE radio is unique and valuable. It would be a great loss to the people of my community who are searching for excellent Christian music and support for everyday living. Please let this valuable station exist for us!
